

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Canceled).

2. (Currently Amended) The device according to claim ~~[[1]]~~ 4, wherein the flanges of the main bobbin are arranged at positions different from each other in the axial direction of the main bobbin.

3. (Currently Amended) The device according to claim ~~[[1]]~~ 4, wherein the main bobbin has grooves formed in a radial pattern at both sides of the main bobbin to communicate ~~the~~ inner and outer surfaces of the main bobbin, and wherein the main bobbin has the flanges that are arranged at both sides of the grooves.

4. (Currently Amended) ~~The device according to claim 1 further~~
An induction heat fixing device comprising:

a heat roller;

a magnetic field generator including a cylindrical main bobbin with an electric wire wound around to form a coil on the outer surface and flanges formed at both ends of the main bobbin;

a pressure roller that rotates jointly with the heat roller while kept in contact with the heat roller; and

electric wire guides formed on the inner surface of the main bobbin corresponding to the grooves with signs indicating a type of electric wire shown on the electric wire guides and the main bobbin.

5. (Original) The device according to claim 4, wherein the sign includes a winding direction of the electric wire.

6. (Original) The device according to claim 5, wherein the sign indicating the winding direction of the electric wire is provided on the flange surfaces provided at both sides of the grooves.

Claims 7 - 20 (Canceled).
